## Sam Chastam Gives Land For Cemetery

An addition of approximately three and a half acres to the Port Mayaca Cemetery grounds was made the past week when R. L. (Sam) Chastain of Palm Beach at Canal Point deeded 3.554 acres of the ranch land he owns adjoining the grounds on the west to the cemetery.

The tri-city cemetery board, made up of Walter Ashley, chairman of Belle Glade, S. J. Fisher of South Bay and Louis F. Mims of Pahokee, has been negotiating for several months with owners of land adjoining the cemetery grounds for additional space which was urgently needed. The action of Mr. Chastain, pioneer Glades farmer, vegetable broker and cattleman, in deeding over three and a half acres to the cemetery helps to relieve what had become a very serious shortage of space, according to the board.

The Port Mayaca Cemetery, serving the entire Glades area of Palm Beach County, was originally established by the City of Pahokee but for the past 11 months it has been operated jointly by the cities of Pahokee, Belle Glade and South Bay through the tri-city board of trustees, each of the cities sharing operational and maintenance costs proportionately.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.70 ... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Lessee must also provide seating arrangements for the events, police and traffic officers, enclosure for the area where the event is to be staged.

The resolution prohibits the sale

In another action the board called for bids for construction of concession stands at Foster and Phipps Park and also called for bids on operation of the concessions. The concession will be used for the sale of food, drink and souvenirs.

The board approved the use of John Prince Memorial Park at Lake Worth on request of the Civil Air Patrol for a weekend camping operation for some 30 CAP cadets.

The board also voted to meet with officials of the Central and South Florida Flood Control Board to discuss construction of Canal 17 in the north end of Palm Beach County.

Took under advisement the possibility of changing the name of North Lake Worth Road to Second Avenue Extension.

Proclaimed Friday, August 27 as Polio Dollar Day in Palm Beach County.

in the various road department districts to sample sentiment on the proposed changes which would completely revamp the operation of the road department and selection of its employees. Tapper requested that Commissioner Rardin attend as many of the public meetings as possible.

According to the advance agenda for the hearings, the state and county officials will discuss a different method of selecting the five members of the road department; selection of a direction and highway engineer; job classification for state road department employees that will get the workers out of the ranks of political appointees and into some system of job security; a change in the manner of determining the priority ratings for new road construction and maintenance; a revolving fund for purchase of right of way; a reclassification of the state's road system on a 10-year basis which would determine long range priorities for construction and maintenance work.

In connection with the county's immediate road projects, Commissioner Rardin asked this week that County Engineer Steve Middleton and Commissioner Kenneth Foster urge the state road department to make an early start on the remaining 10 miles of rebuilding Connors Highway. Middleton and Foster were in Tallahassee for a SRD meeting.

## Defense is your job, too!

**THIS IS A DAY OF DREAMS COME TRUE**... for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over, the nightmare of war is behind them. These boys have seen far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength is America's surest guarantee of peace.*

Because now *every Series E Bond* you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

### Christian Science Group Of Canal Point

Christ Jesus' mission to reveal divine healing which overcomes sin, sickness, and sorrow in every age, will be brought out at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon entitled "Christ Jesus" will include the following from Matthew (11: 4, 5): "... Go and shew John again those things which ye do hear and see: The blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them."

The following passage will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (131: 26-30):

"The mission of Jesus confirmed prophecy, and explained the so-called miracles of olden time as natural demonstrations of the divine power, demonstrations which were not understood. Jesus' works established his claim to the Messiahship."

The Golden Text is from John (1:17) "The law was given by Moses, but grace and truth came by Jesus Christ."

### Crash Rescue Boat Saves Two Fliers

Alertness and prompt action on the part of the personnel of the Air Force's 15th Crash Rescue Boat Flight stationed at Canal Point saved two Hialeah men Dave Goldberg and James Carlin from possible injury and their Seabee amphibious plane from destruction last week when their plane caught fire in the air and they had to make a forced landing on Lake Okeechobee about three miles from Canal Point.

Seeing the plane in trouble, M-Sgt. Melvin A. Baldwin commanded one of the crash boats tied up at Canal Point which sped to the area where the plane was preparing to land, and the boat arrived as the plane taxied to a stop with its engine burning fiercely. The fire was extinguished by the boat's crew before the plane suffered major damage. It was towed to Canal Point for repairs.

## WHICH ONE DO YOU WANT?

*you can have your dream house—this easy way!*

A dream? Not at all. Thousands of people with modest incomes have been able to save the down payment, or the whole price, of the home of their dreams—because they invested in U. S. Savings Bonds on the Payroll Savings Plan. Look at the chart on this page. See how you can accumulate enough money for the down payment on a home. Or enough for your children's college education or a retirement income. And by saving only a few dollars a week, too.

The answer is that you save *systematically* on the Payroll Savings Plan. All you have to do is tell your pay office how much you've decided to save each payday (it can be as little as a couple of dollars). After that your money is saved for you, *before* you get your salary. Then each time enough has accumulated, it is invested in a Bond, and the Bond turned over to you:

And remember—your U. S. Savings Bonds now will bring you an average of 3% interest, compounded semiannually, for 19 years and 8 months. That's why the money you put into Bonds now grows to such a surprisingly big sum.

Why don't you start—today? Sign, where you work, for the Payroll Savings Plan. Or, if you're self-employed, have your banker enroll you in the Bond-A-Month Plan. It's as easy as the Payroll Savings Plan:

### *How you can reach your savings goal on the systematic Payroll Savings Plan*

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save...	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save...	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. You can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!
